

OEM Partner Network

Design

Furnish

Install

Control

RWS Design & Controls is aligned with a selection of best-in-class OEM Vendor/Partners.

RWS has established a nationwide network of OEM vendor-partners to collaborate with for even further product knowledge, project consultation, superior technology, customer service, and technical support. Our direct purchasing power is also enhanced through this combination of supplier relationships. We carefully select these partners in our network, to further ensure that RWS delivers the best and most complete integrated processing solution that meets your needs...and surpasses your expectations.

EQUIPMENT // COMPONENTS // COMPLETE PROCESS SYSTEMS // SPARE PARTS PROGRAMS // PROJECT SERVICES

Heat Transfer

Direct UHT Steam Infusion
Direct UHT Injection
Indirect UHT Tubular & Plate
Plate, Tubular, & Scraped Surface Heat Exchangers
Shell & Tube Heat Exchangers

Mixing & Blending

Agitated Batch Tanks
Formulation & Preparation Tanks
Specialty Mixers & Blenders
Custom Fabricated Mix & Blend

Separation Technology

Plate & Tubular Evaporation
UF/MF/RO Filtration
Centrifugal Separators

Cleaning & Recovery

Single-Use CIP
Multi-Vessel CIP
COP Tanks & Systems

Fluid Handling & Homogenization

Centrifugal Pumps
Rotary, Positive Displacement Pumps
Single-Seat, Mixproof & Aseptic Control Valves
Lab & Production Scale Homogenizers
High-Pressure Pumps
Twin Screw Pumps

Tanks & Silos

Horizontal Storage
Vertical Storage Silos
Sterile Tanks
Custom Storage Tank Farms

Automation & Control

Process Control Instrumentation & Software Development
Process-to-Boardroom Automation
Process Optimization, Retrofit & Enhancement

RWS Fabrication

UL Listed Control Panel Fabrication
Modular Process Skid Design & Manufacture

Custom Products

Tubular, Plate & Flash Pasteurization
Aseptic & ESL Processors
Hot Water Sets
Sterile Water Skids
Sugar Dissolvers
Butter-Fat Standardization
Drum Unloading Skids
Bulk & Material Handling Skids
Vitamin Injection
Process Mezzanines
Ingredient Injection
Valve Manifolds
Yogurt Systems
Butter Systems
Cheese Systems

Engineering, Design, Integration & Installation Services

Project Scope Definition
Process Engineering
Process Design
Project Management
Equipment Installation
Process Integration
Complete Turnkey Project Responsibility from Receiving Bay to Fillers

Spare & Replacement Parts

OEM Parts Supply Programs
Customized Spares Kits
Guaranteed OEM Spares
Knowledgeable Aftermarket Team

Service

Troubleshooting & Repair
Operator Training & Coaching
Service Contracts
